

Finishes & Materials

Swatches and Samples:

Samples of wool felt, paints, and laminates are available upon request.

Kimball Office carefully selects all materials used in every product, ensuring a commercially acceptable color and finish.

Samples of textiles are available upon request. There may be slight differences between samples and actual products as a result of variations in dye lots.

To place an order for collateral samples visit:

www.kimballoffice.com.

You'll find the "Order Literature" function under the "Marketing" tab. If you do not have access to the partner site, contact your Kimball Office sales representative or the nearest Kimball Office Showroom.

Finishes & Materials Program Overview

Discontinuation Policy:

Kimball Office strives to give all business partners advanced notification of surface materials that are scheduled for discontinuation. Efforts will be made to support discontinued materials as specified in the deletion announcement. Pricing cannot be guaranteed. Extended leadtimes and minimum order requirements may apply.

Disclaimer:

Kimball Office will make every reasonable effort to maintain our commitments. If surface material changes must occur due to unforeseen circumstances, we will work with you on an alternative recommendation. Kimball Office reserves the right to cancel or make changes to standard products and surface materials.

Kimball Office offers a diverse collection of surface materials.

Please see descriptions below to ensure that you are choosing the materials that best support your requirements.

Vision Collection Fabrics

Our Vision Collection fabrics

offer a wide variety of materials that include both timeless classics, as well as a selection of trendy colors and patterns to keep the offering fresh and current.

The classic patterns are perfect for establishing new standard color palettes, while the trendy patterns are great for adding accents and pops of color to make a statement and to show that you are in tune with the pulse of today's fast-paced world.

The Vision Collection was developed with an international flare to make it easy for global companies to standardize in all locations. It contains both standard in-line and alliance patterns. Our alliance partners are chosen with great care to give us the best selections and service in the industry.

You will find that colors were developed to coordinate very well between the in-line and alliance

offerings, as well as between the seating and panel fabric offerings.

The Vision Collection will provide options for the discerning client for many years to come.

Vision Collection Woods

The new wood finishes available in the Vision Collection offer fresh options that provide natural-looking finishes to meet today's design expectations. From the lightest Brighton Maple to the darkness of Urban Walnut, the new finishes will add sophistication and beauty. These finishes were chosen with great attention to offer a complete range of color options making it simple to specify the look you want. You can achieve contemporary or transitional looks, or choose to update your traditional style by selecting one of the new walnut or cherry finishes.

Kimball Office carefully selects veneers and solid woods to provide high quality wood furniture. Variations in color, grain, and texture occur naturally in all wood species, but are most apparent in lighter colored woods, and especially in natural finishes.

The Vision Collection offers a number of light finishes

that will not hide or mask the natural characteristics of wood. Mineral streaks, pitch pockets, and color variations from piece to piece are all characteristics that occur in natural veneers and are what make each piece unique. While the finishing process is identical for all pieces, each finished piece accepts the stain differently to create its own individual beauty. These characteristics are part of the inherent natural beauty of wood and are not considered defects.

Darker finishes can be selected to hide more of the veneer's characteristics. Several beautiful coordinating woodgrain laminate options are also available for the customer who wants complete color and grain consistency throughout.

Two surfaces with grain directions that are at different angles to a light source will reflect the light differently and look a slightly different color. This natural phenomenon is called flip. This can happen within a single piece as alternating veneer leaves are placed side by side or from piece to piece. Flip is often noticed on worksurfaces installed at a 90° angle to each other.

Two premium veneers, Sapele and Zebrawood, have been added to the standard offering to provide options for high impact styles without having to quote custom veneers. Zebrawood is a premium composite veneer. Premium veneers could receive extended lead times based on supplier availability at the time the order is placed.

Generations Collection

The Generations Collection is comprised of tried and true materials that have been in the Kimball Office offering for many years. This collection is designed to support existing customers and to help transition you to the Vision Collection. [Visit kimballoffice.com](http://kimballoffice.com) to see the Generations Collection.

IMPORTANT: Materials in this collection should not be used to set standard color palettes for new installations.

Materials in this offering can be ordered using the standard process, however, extended lead times and minimum order quantities may apply. For best results, pre-planning orders with your Customer Service Representative is recommended.

Grain Direction for Woodgrain Laminates:

Customer Specified Laminate

Pricing:

A 20% upcharge applies to approved CSL orders for supplier standard laminates.

Customer specified laminate (CSL) is available on select laminate products.

➤ Contact your Customer Service Team to initiate approval.

Kimball Office reserves the right to decline a customer specified laminate which may not be suitable for application.

Kimball Office assumes no responsibility for the durability, consistent coloration or any other performance characteristic of a customer specified laminate.

Metal, embossed, specialty, and supplier discontinued laminates must be custom quoted.

➤ Contact **By Design** at 800.482.1616, extension 6001
e-mail: kobydesign@kimball.com

Kimball Office orders and procures all customer specified laminates.

Laminate sheen level should not exceed 60° for maximum durability of worksurfaces.

Lead times may vary for certain laminates. Minimum order quantities may apply.

How to Specify:

- ① **Model:** Build the complete model specification (excluding the finish type and finish designator) by following the How to Specify on the appropriate pricing page for the product that is to receive the special finish.
- ② **Finish type:** For the "Finish type" step, insert a special finish code (in place of STD).
ZFMA1 = Formica
ZLMT1 = Lamin-Art
ZLTC1 = Lamitech
ZNEV1 = Nevamar
ZPTE1 = Pionite
ZWST1 = Wilsonart
- ③ **Finish designator:** For the "Finish designator" step, insert the laminate designator (pattern number) of the supplier's laminate to be applied to the product.

Textiles

Cut Yardage Program:

All Kimball Office textiles

are available on a cut yardage basis. Textiles are available in whole yards only. Roll length is 72"W. List price includes freight.

	<i>List Price</i>
	<i>per yard</i>
Wool felt	\$280

How to Specify:

- ① Model:
KOFELTCUTYDG = wool felt
- ② Felt color

Note: Textiles are not warranted against fading and wear, discoloration from contact with liquids, or change in color or texture caused by application of finishes (flame proofing, stain resistance).

Coordinating Paint:

Wool felt colors are coordinates to same-name paint colors.

▶ See page 83.
