

**Put everything they need in  
one convenient place**

Individual workspaces are getting ever smaller, but workers still need storage. File banks are utilitarian, yet they need to blend in and complement the interior design, and they must be rock solid and secure. Kimball Office metal filing and storage solutions are engineered and built for long-term durability, and they offer a range of aesthetic options.

Kimball® Office

**METAL FILING**

The need for file space is a constant—  
**LF Series and Fundamental Files are the answers**

- Files available in two to five-high units for use in file banks and storage islands, or for space division.
- Convenient coordinating options like storage cabinets, overfiles, posting shelf units, file tops and paper management accessories.
- Coach seam construction contributes to a rigid case and provides a clean look with no exposed welds.
- Files can be moved fully loaded, which saves time and prevents the risk of misplaced documents.
- Most file units are available in 10 days through the Kwik Office program.
- ADA-compliant five-high lateral file has the lock at mid-height and choice of two easy-to-grasp pulls, for seated access.

Metal Filing may contribute to LEED credits. Please refer to our Environmental Data Sheets, located on [www.kimballoffice.com](http://www.kimballoffice.com) for specific details.

Metal Filing is SCS Indoor Advantage Gold certified.

the BIFMA sustainability standard
