Overview

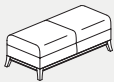

Lounge Seating Design Variations:

2 1/2-Seat

1-Seat

Lounge seating is available in two-and-half-seat and one-seat models with arms.

Bench is 53"W.

Ottoman is 25"W.

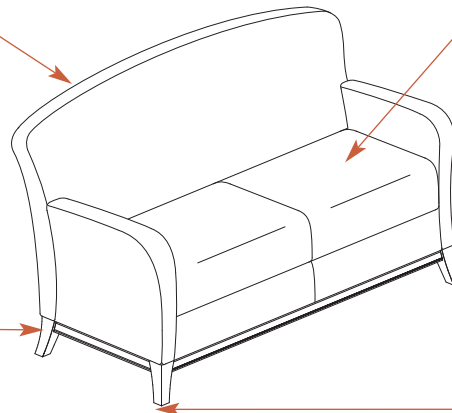

Wood base on all models is available in all Kimball Office standard wood finishes.

Testing Standards:

Talent lounge seating and bench meet or exceed the applicable BIFMA/ANSI standards and meet Kimball Heavy Duty testing requirements of 350 lbs.

Frame is constructed of 3/4" plywood, utilizing lap joint construction that is glued and screwed. All upholstered models are standard in kiln-dried maple hardwoods.

Legs are flared and accented with a decorative base rail.

Cushions are high grade resiliency, CFC-free polyurethane foam.

Non-skid glides are 3/4" in diameter and adjustable.

Features

Back and seats feature high-tension, strip-webbing suspensions that are stapled to the frame.

Back cushions are 1 1/2"-thick, high-grade, laminated polyurethane foam. Back upholstery features 1/4" sewn-in foam and uses a slipcover upholstery method that is stapled into place.

Seat cushions are 6"-thick high-grade laminated polyurethane foam that is custom shaped. Seat upholstery uses a wrap-around upholstery method that is stapled into place.

All models are fully upholstered. Bottom is finished with a black fabric dust cover.

Armrest tops and outside panels are constructed with 1/4"-thick, high-grade polyurethane foam. Upholstery features an additional 1/4" sewn-in foam and uses a slipcover upholstery method that is stapled into place.

Legs and rails of base frames are constructed using double dowel and glue constructions with corner blocks that are also glued and screwed to the base rails. The base frame is attached to the seat frame with wood screws through the rails. Two-and-a-half seat and bench models have additional screws to provide extra support.
