Vista

Overview

Design Variations:

Vista is available in 3-, 2-, and 1-seat models and with or without piping.

Models with legs are available on all sizes. Wood finishes are standard.

Options:

Contrasting upholstery is available on models without piping. Back and seat upholstery applies to the cushions; arms and frame upholstery applies to remainder of the lounge model.

Contrasting piping may be specified on applicable models in Kimball Office fabric or leather.

Frame is constructed of 7/8" plywood.

Cushions are high resiliency, CFC-free polyurethane foam.

All models are fully upholstered.

Non-skid glides are 1³/₄" in diameter and adjustable.

Features

Seats have a high resiliency sheet webbing suspension that is stapled to the frame. Frame construction meets or exceeds GSA Heavy Duty Testing requirements.

Seat cushions are removable and feature 7" of dual density, custom shaped foam. Each cushion is 22"W, slipcovered, and closed with zippers.

Back features a non-stretch woven suspension that is stapled to the frame.

Back cushions are attached and feature 5¹/₂" of dual density, custom shaped foam.

Armrest frames are wrapped with 1/2" high density foam, slipcovered, and attached to units with three 7/16" carriage bolts per arm.

Legs, on applicable models, are kiln-dried select hardwoods and are attached using three wood screws. Each leg contains a non-skid adjustable glide.

All models are fully upholstered. Bottom is finished with a black fabric dust cover.
