Overview and Pricing

Kwik Office Model:

Mid-Back with Fully Adjustable Arms (QK31AC)

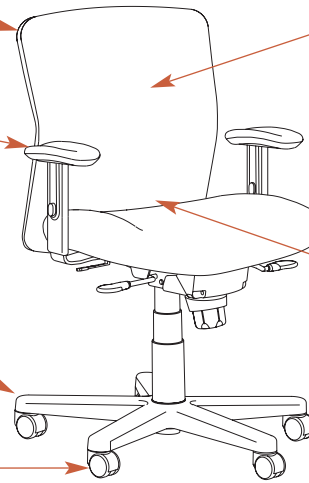

- Plastic outer back
- Pneumatic cylinder
- Synchro-tilt mechanism
- Swivel
- Seat slider
- 34¼"-42½"H x 27¾"W x 25½"D

Outer back is plastic.

Arm caps are soft urethane.

5-prong base is constructed of rigid engineering resin. The surface is textured for scuff resistance.

Hard dual-wheel casters (C9) are standard.

Custom controlled-density, CFC-free, urethane foam provides comfort consistency and contour for proper body support. Backs and seats feature dual-density foam.

Adjustable back height, ergonomically designed with an adjustable lumbar, is standard. It adjusts up and down easily by grasping the back, providing a 3¼" travel range.

Features

Outer shell is injection-molded polypropylene.

Inner shell is blow-molded polypropylene, designed with a deep ribbing pattern to ensure rigidity.

Seat cushions have 2¼" of base foam, plus a ¼" soft topper pad to enhance comfort and reduce fatigue.

Back cushions have 2¾" of contoured base foam to enhance comfort and reduce fatigue.

Seamed, slipcover-style upholstery on both the back and seat accommodates a wide variety of fabrics.

Arms have a structural metal upright encased in an injection-molded, glass-filled nylon shroud. Arms are secured to the chair with metal brackets and ¼" fasteners.

Seat slider allows the user to set the depth of the seat to match their physical requirements. Seat depth is adjusted via a single lever and locks in one of 7 positions within a 1¾" range.

Fully adjustable arms include height and width adjustment with pivoting arm caps. Arms adjust in width via a lever to one of 4 positions within a 3" range. Push button allows arm height to be adjusted and locked into one of 7 positions within a 2½" range.

Pivoting arm caps on fully adjustable models allow the arm caps to be rotated in or out and set in 3 different positions within a 30° range.

How to Specify:
