

**Call Kimball Office when you need something special**

We know customers don't seek products; they seek solutions. From rough ideas to specific requirements, the dedicated and experienced Kimball Office By Design team offers dynamic alternatives. By Design works closely with the designer and customer to provide exactly what's needed in image, price and quality. By Design turns visions into reality.

Kimball® Office

BY DESIGN™

## Kimball Office By Design is the go-to group for special requests

Who can you call for a unique furniture need? Customers, architects and designers simply contact a Kimball Office Dealer or sales representative when they need to modify a product or use special finishes. By Design products will be quoted to you in writing with a complete product description, at a list price. By Design handles requirements such as:

- Special-sized desks, returns, bridges, and credenzas; and narrower or wider storage units. Keep in mind, many Footprint worksurfaces allow the option to reduce depth and/or width as well as add grommets, miter cut, or add wire manager as standard options in the specification tools.
- Alternate veneers and pulls besides those that are standard for a series.
- Modifications to seating, such as “jury” base plates on chairs, contrasting or railroaded upholsteries, and TB133 compliance for non-Kimball Office fabrics. For instance, we can embroider your logo on the back cushion of a Stature or Wish—virtually any upholstered chair.
- Refrigerator units in buffet credenzas.
- Requests for FSC wood on Kimball Office desks and storage.
- We intend to be competitive with our pricing of specials, but remember that the price will be reflective of the complexity of the request
- Your visions—what can we modify or build for you? Some special projects require minimum order quantities and extended lead time, generally 3-4 weeks longer than standard product. With any modified or custom product, we go through a complete engineering process to ensure that the product can be produced to the highest standard of quality.

We’ve seen By Design projects that are so popular they become part of the standard product offering. Examples of products that began as specials are single-sided Hum stations, longer and wider conference tables, frameless glass on Cetra and Xsite, and Talent lounge.

By Design products may contribute to LEED credits. Please refer to our Environmental Data Sheets, located on [www.kimballoffice.com](http://www.kimballoffice.com) for specific details.

Kimball Office products are level™ certified. level™ provides an easy way to understand how our products can contribute to your sustainability goals. level™ ensures a comprehensive, independent and impartial assessment of the environmental and social impacts of a product’s manufacture to the ANSI/BIFMA e3 sustainability standard.
