Shelf Installation

Tools Required

- None

Installation

1. Adjustable shelves can be added to any unit. An adjustable shelf consists of a shelf and four shelf support brackets. 12"D shelves use four shelf support brackets; 21"D shelves use six support brackets. (Figure A).
2. All cabinets feature pre-bored holes 1¼" apart. Recommended shelf spacing is #3 position for proper ring binder clearance. (Figure B).
3. For additional security, wood shelves can be fastened into position using #6 x 5/8" panhead screws (not provided). (Figure C).
