

Complementary Furniture

Leveling

Tools Required

- 7/32" Nut Driver
- Level

Package Contents

- None

Installation

Note: All floor units **MUST** be leveled as described below for appearance and proper function of doors and drawers.

1. Remove all drawers as required for access to leveling glide adjustment holes.

Note: To remove drawers, refer to the Pedestal Drawer Removal Assembly Instruction sheet.

Credenzas and Vertical Storage: Turn the glides fully "in" (counterclockwise) prior to leveling. Level the unit from front to back by extending the glides (turn clockwise). Level the unit from side to side. Check adjustments by placing the level in the four positions shown. (Figures A and B).
