| <ol style="list-style-type: none"> 1. An innovation credit can be submitted documenting the amount of recycled content, and that the product is indoor air quality certified. The USGBC will decide if the submission merits an innovation credit. 2. LEED requirements can be obtained if the sum of the post-consumer recycled content plus one-half of the post-industrial content constitutes at least 10% of the total value of the project. 3. To contribute to this credit, the final assembly of the product must be manufactured within a 500-mile radius of the installation site. 4.
